

BOW VALLEY RESOURCE

Including Arrowwood, Milo, Queenstown, Shouldice and Mossleigh

Volume 2, No. 43

ARROWWOOD, ALTA., JUNE 15, 1933

Subscription \$2.00, U.S.A. \$2.50

Marquis Council Notes

The Council of the M. D. of Marquis met at the Municipal Office at Milo on Monday June 5, with all members of the Council present. The minutes of the previous meeting were read and approved as read.

The necessary arrangements in connection with grasshopper mixing station at R. Shore's place was completed and all rate-payers can now secure poison bait at the above mixing station.

The new Tax Consolidation Act was read and discussed by the Council and from the reading of the Act, it is now possible to Consolidate arrears of taxes spreading such arrears over a period of six years, or liberal discounts as prescribed by the new Act are offered for cash payment of arrears.

A Resolution was unanimously passed by the Council, asking the Dept. at Edmonton for immediate action towards the discontinuing of commercial or use fishing in Lake McGregor. A petition with quite a large number of signers was presented to the Council, asking that immediate action be taken to have net fishing stopped at Lake McGregor.

The next meeting of the Council will be held at the Municipal Office, Milo, on July 3rd at the hour of 10 o'clock a. m.

FOR SALE—A Good, young milk cow, fresh, or will trade for gang plow or wagon. Apply D. H. M. Shouldice.

Summer Fallow plowing done by the acre or on contract. Apply Resource Office.

Milo Notes

Mr. Scott, agent for the U. G. Elevator, and his wife left on Saturday for a trip to Eastern Canada.

Mrs. H. Dietz has taken a trip to Toronto where she will spend the summer.

A surprise was held at the home of Mrs. J. McLean on Friday evening, June 2nd, when the Oddfellows and Rebekahs presented Miss Gladys Soil and L. Phillips with an electric clock and all good wishes for a happy future. The United Church Ladies Aid also gave a surprise for Miss Soil Saturday evening at the home of Mrs. J. McLean, when the ladies presented Miss Soil with a lovely blanket of pink and yellow wool, bound with satin in the same shades. After ice cream and cake were served, the evening ended with singing "Blest be the Tie That Binds."

(Continued on page 4)

W.A. Meets at Home of Mrs. Shouldice

The W. A. of the Arrowwood United Church met at the home of Mrs. R. Shouldice on Thursday June 8th. Nineteen members and six visitors present. Mrs. G. F. Kemper, vice president, occupied the chair and after the usual routine opening business was then dealt with. A letter of appreciation from the Calgary Missionary Society was read, thanking the W. A. for the quilt donated.

A vote of thanks was tendered to Mrs. Kilborn and Mrs. N. Cary for their faithful assistance in quilting, also to Mrs. Cary for the use of her home and kind hospitality.

In an endeavor to raise funds the W. A. are sponsoring a 25c Tea, on Friday afternoon June 23rd, in Horning's Hotel. There will also be a table of home cooking under the convensorship of Mrs. G. F. Kemper.

The tea tables will be convended by four groups of four members each. Each member being asked to solicit the patronage of four lady friends.

There is also a short program being prepared. The ladies trust the weather will be favorable and a very friendly afternoon will be spent.

The next meeting of the W. A. will be held Thursday, July 13th, at the home of Mrs. J. McCann.

The social hour was spent in solving a contest arranged by the hostesses. Mrs. R. Hill assisted Mrs. Shouldice in serving a delicious lunch.

Farewell for MacLeods

Last Thursday evening Mrs. J. M. Weins very kindly offered the use of her home to the U.F.A. for the purpose of putting on a farewell party for Mrs. MacLeod, Isabelle, Kathy and Joan. The first part of the evening was taken up with out door games which were played in the school yard. Following these activities a very bountiful lunch was served. The three girls were presented with a box of chocolates while Mrs. MacLeod was the recipient of a lovely bon-bon dish. The presentation speech was made by Miss Frances McEldrie. Dancing was enjoyed for a short time, after which ice cream was gratefully partaken of. Mrs. MacLeod and the girls will be greatly missed in the work of the U.F.A. The High School Juniors will be subjected to the loss of a very efficient president, Joan, and the Senior Group the loss of a good secretary, Kathy.

Joint Meeting of U.F.A. and U.F.W.A.

A joint meeting of the U.F.A. and U.F.W.A. will be held at the home of Mr. and Mrs. R. F. Williams on Monday, June 19, in honor of Mr. and Mrs. J. A. MacLeod, at 8 o'clock.

Arrowwood Council Notes

A regular meeting of the council of the village of Arrowwood was held on June 7th, all Councilors present.

The minutes of the meeting of May 9th, 1933 were read and adopted as read on motion by Beagle.

Correspondence of the past month was dealt with. A letter from the Minister of Municipal Affairs was read approving the appointment of M. M. Murray as auditor for 1933.

A letter from the Department setting the assessed value of electric power in the village at \$6,000 was read and filed.

A letter from the Calgary Power Co. regarding the irregular voltage in the village and promising to rectify it was read and it also was placed on file.

G. Jones and A. Horning were present to interview the Council as to the new Tax Consolidation Act, which has just been passed for the benefit of those in arrears with their taxes.

The following accounts were presented for the approval of the Council and passed for payment:

Revelstoke Sawmill Co. lumber for sidewalks, \$60; G. W. Evans, Mrs. Anderson's funeral expenses, \$75.00; Geo. Duncan, labor on sidewalks and ditches, wedding and hoeing trees, \$7.70; Mrs. Payne care of Mrs. Anderson, \$10; Resource, (advt. re clean up week, \$15.00; T. S. Board, 1 month's salary, phone, wire and stamps and registering tax notices, \$17.70.

The new Local Tax Arrears Consolidation Act was then discussed and the following resolution was moved by Lewendon, seconded by Beagle "That the terms as set out under the Local Tax Arrears Consolidation Act, Chapter 28, 1933, be and are hereby accepted and made applicable to the Village of Arrowwood." Carried.

The attention of taxpayers in arrears is especially called to the advantages of the Tax Consolidation Act mentioned above.

P.T.A. Notes

The regular meeting of the P.T.A. was held at the home of Mr. and Mrs. J. M. Weins on the evening of Monday, June 12th. In the absence of the President, Mr. E. Lewendon acted as chairman for the evening. The members of the P.T.A. wish to thank all those who made donations towards the lunch for the school children at the picnic held at the river on June 7th.

The P.T.A. are very keenly interested in the introducing of a picture show in the nature of educational films, for the benefit of the school children. A list of suitable pictures will be prepared and the best pictures will be shown. These pictures will be shown at matinee prices, the rate per ticket to be in accordance with the price of pictures chosen. A committee of four have been appointed consisting of Mrs. Weins (as convener), assisted by Miss I. Mackie, Mrs. Omer Larsen and Mr. Cary. The committee is to arrange for a picture to be shown once a month, commencing as soon as possible.

After the business transactions had been completed the Hostess, assisted by other members, served a dainty lunch. Mr. Lewendon, then, on behalf of the P.T.A., presented the members who are leaving the community, in the near future, with lovely gifts, namely Mrs. J. A. MacLeod, who has been one of its first members and Mr. and Mrs. C. E. Johnston. Mr. Johnston has been Principal of the High School and has taken a very keen interest in P.T.A. work. Mrs. R. E. Hales was also presented with a lovely flower pot as a small token of appreciation for her services as secretary-treasurer during the past year.

Dance Friday Night

The U.F.W.A. are holding a dance in MacLeod's barn on Friday night, June 16th, admission 35c.

Mossleigh News

Sports day last Friday was a real success and was attended by a large crowd. The softball tournament was won by the Dodgers and the baseball game between Carseland and Arrowwood was won by the Arrowwood team. Arrowwood also carried off the honors in the girls' softball game. The airplane had a very busy day taking up passengers. The dance which started up the day was a real good time for everyone. Len Davis excelled himself in providing snappy music and the dancing continued until after 3 o'clock.

A number of fans motored to Blackie on Sunday for the baseball game between Blackie and Stavelay.

Mr. and Mrs. Potter of Blackie were visitors at the W. Bulman home Tuesday evening.

On Saturday Miss Godkin and Mrs. Daub were Calgary visitors. Mrs. E. Boss accompanied the return and spent the week-end here.

Many of the local young people are spending their spare time in the swimming hole these days.

Arrowwood Notes

Mrs. R. R. Saunders spent the week-end at Turner Valley.

Miss Alice Archambault began her two weeks' holidays on Tuesday of this week.

Mr. and Mrs. A. Horning and Norman were business visitors to Calgary last Saturday.

U.F.W.A. dance Friday night at MacLeod's barn, admission 35 cents.

Dr. and Mrs. Alexander of Calgary, were Sunday visitors at the home of Mr. and Mrs. J. A. MacLeod.

Mr. and Mrs. R. E. Hales and Joan were Sunday guests at the home of Mr. and Mrs. Neil McColman.

Mr. and Mrs. C. E. Johnston and Dorothy motored to Langdon on Friday. Mr. Johnston returned on Sunday and Mrs. Johnston and Dorothy returned on Wednesday evening.

A great many from this district attended the celebration at Mossleigh last Friday and report a good time.

Wm. Aberhart, B.A., will lecture on the Douglas System of Economics in Arrowwood on Thursday evening, June 29th. Further particulars in next issue.

Miss Verne Ingraham, of the Holy Cross Hospital nursing staff, was a visitor at the home of her father, Mr. A. Ingraham, last Sunday.

The exterior of the C.P.R. station is being brightened up with a fresh coat of paint. This commendable example will no doubt be followed by many others throughout the community.

After spending several days with his sister, Mrs. Nisam, Mr. A. Johnston, former grain buyer for the Pioneer Grain Co. at John Hill, left for Southern Saskatchewan to which point he has been transferred by the Company.

Shouldice Waves

The many friends of Mr. G. E. Harp, who left to visit his mother in Oregon, will be interested to learn that his family have received word announcing his safe arrival in Fernie. They will again hear from Seattle.

It will not be long until exams—here's wishing every one the best of luck.

The crops in this district are looking fine but more moisture is needed.

Chautauqua will open their four-day program at Gleichen on June 30 - July 1-3-4.

Born—To Mr. and Mrs. Geo. Heather of Majorville on Tuesday, June 13th, a daughter.

Fine Professional Cast Presents "Sun Up"—Carolina Drama, Here Soon

Scene from Great Drama "Sun Up"

One of the outstanding attractions of the coming season here will be "Sun Up", vivid drama of the mountain people of North Carolina. Here is a poignant drama of the simple, primitive people of the Carolina mountains, living a life untouched by the great world "beyond the hills". Here the World War shatters this idyllic existence and plunges the Widow Cagle, her family and neighbors into a vortex of emotional conflict that is powerfully enacted in this great play.

"Sun Up" has secured tremendous success in London, New York, and other metropolitan centers.

Second Evening of Gleichen Chautauqua, June 30-July 4th.

Friday Night, June 16th

ARROWWOOD THEATRE

Cecil B. DeMille's

with Frederic March, Rissam Landi, Claudette Colbert, Charles Laughton, and 7,500 others. The biggest thing that has happened in pictures! You'll never forget it!

3 REELS COMEDY

8:30 p.m. Adults and High School Students 25c, Children 15c

Enjoy This Finer Quality

"Fresh from the Gardens"

Vacation Days.

Schools all over this western land will soon close their doors for the summer months and tens of thousands of boys and girls will joyfully welcome the "holidays."

In offices and shops week by week employees and employees will for longer or shorter periods relinquish their tasks to enjoy their hard earned summer vacation.

Work on the farms will ease up a bit following Spring activities and during the period while the crops grow and ripen for the harvest.

In a word, Western Canada's short playtime period is at hand.

It is a time to forget, as far as may be possible, the worries and difficulties of the months of depression, and for the younger generation in particular every reasonable effort should be made to make the next two or three months as happy and health-giving as possible, with life lived largely in the open.

There will not be much money to spend, and vacation plans will have to be made upon a cheap scale by most people, but that is no reason why these holidays should not be just as enjoyable as if planned in a much more elaborate and expensive way.

Long journeys may be out of the question, but fortunately Western Canada has been blessed by nature with an abundance and variety of lovely summer resorts and camp sites which can be reached easily and at little expense, and where the daily cost of living is extremely low. Such a vacation will serve to remove the strain and worry of school studies and exams, which youth has been undergoing, and blow away the fogs of the depression in which all people, young and old, have been living. It will mean renewed mental and physical vigor.

Fortunately, too, in this year when money is not a plentiful article whereby to travel to other countries, opportunity is being afforded right in the heart of Western Canada for a holiday which combines all the essentials of an enjoyable, worthwhile respite from daily life—a holiday that will provide relaxation, entertainment and thrills combined with educational features and opportunities never before offered in this Western country, and all at small expense.

Reference is to the World's Grain Exhibition and Conference to be held at Regina during the last week of July and the first week of August. This will be a truly wonderful exhibition, a magnificent enterprise. Over thirty nations, states and provinces will be represented in the specially constructed quarter of a million dollar building, having a floor space of 148,000 square feet, and actually miles of exhibits. It will not only a sight worth seeing, but a great education.

A vacation visit to this great exhibition, which will be the result of three years of intensive preparation, will not be a costly one. For the people of the prairie provinces, the distance to be travelled is short, and specially low rates on the railways will make the journey within reach of most people, even in these days of restricted finances. A huge city of tents will be built adjacent to the exhibition grounds, with modern facilities provided, where groups and families can stay at the very minimum of expense, and will constitute an ideal outing for motor parties from all over the land. Western Canadians, old and young, need not deny themselves a real and enjoyable vacation this summer. They owe it to themselves to take all the enjoyment and recreation they can from the opportunities afforded them. They will be better for it, whether it be the spending of a lazy time at some camp or small summer resort, or in a visit to the big world show at Regina. In any event they will come to their own Western country better than ever before, and to appreciate it and its possibilities, and they will combine with it the obtaining of a glimpse of the world, and more especially of those nations which are engaged in the same major activity as the people of Western Canada, namely agriculture.

So,—take a lively pack the family in the old car and hike away to some new scene. Live in the open, rambling over the country side. Go fishing. Let the boys and girls paddle and swim, enjoy out-of-doors games, gather around the bonfire at night for an old time sing-song. Everybody will be the better for it.

Long-Lived Monarchs

None Have Occupied Throne As Long As Queen Victoria

King George recently attained the 22nd anniversary of his accession to the throne as compared with the nine years' reign of his father Edward VII. Counting from 1914 when the House of Plantagenet was established he is now exceeded in length of occupancy of the throne by twelve others: Queen Victoria, 63 years; George III, 59 years; Henry III, 56 years; Edward III, 50 years; Elizabeth, 44 years; Henry VI, 39 years; Henry VIII, 38 years; Charles II, 35 years; Edward I, 35 years; George II, 33 years; Henry VII, 24 years and Charles I., 24 years.

Creation of "super sheep," giving more and richer wool, has been made possible through gland transplantation. Dr. Serge Voronoy demonstrated at Grimsby, Italy.

Panama has modified its import duty on perfume "to encourage tourist trade."

Dickens delighted in ornamenting himself with costly jewelry.

For sale at all drug and general stores; put up only by The J. Milburn Co., Ltd., Montreal, Ont.

Palpitation of the Heart Nerves Bad—Could Not Sleep

Mrs. Fred Blagham, Swift Current, Sask., writes:—"I was bothered with palpitation of the heart, and my nerves were so bad I could not sleep."

I was getting desperate and my trouble to a friend who recommended me to use Milburn's Heart and Nerve Pills. I purchased a box and got such relief I would gladly recommend them to all who are troubled as I was."

Burning Ten Million Yearly

Figure Given An Forest-Fire Loss In Canada

Figures compiled by the Forest Service of the Department of the Interior show that the annual forest-fire loss in Canada for the ten year period 1922-31 was \$10,000,000. It is something that appals. Canada's forests are among the richest of her inheritances, and the fact that we, the trustees of that heritage, should be sending it up in smoke at the rate of \$1,000,000 a year, is a blot upon our capacity as a people. The melancholy aspect of it all is that most of this fire-loss is the result of indifference, of a carelessness that will not heed warning or educational propaganda. We talk loudly about the exploitation of promoters and about the failures of the newspaper industry, yet all the time we permit or cause a condition which is doing more to ruin our forests than all the capitalists and greedy promoters and failures of the newsprint industry. It is one of the discreditable things in our whole scheme of national economy.—Ottawa Journal.

NURSE LOSES 7 LBS.

"I weighed 145 lbs.," writes a nurse, "when I bought the bottle of Kruschen Salts which I have just finished my eighth bottle. I was teetotal in a glass of hot water every morning. Now I weigh 138 lbs. and I feel like a new girl. I am very glad that I have lost weight especially without trouble."—M.L.E. (United Nurse).

Unlike most salts, Kruschen isn't simply a laxative. When you take Kruschen Salts you not only stimulate your liver and kidneys to function normally and thereby get rid of every internal organ, gland, nerve and muscle in the body with Nature's own vitalizing and rejuvenating minerals. Get a bottle of Kruschen Salts today and take one or two each day in a glass of hot water every morning before breakfast.

Before the bottle is empty you'll feel years younger—eyes will brighten, legs grow sprightly, nerves steady—you'll sleep sound, enjoy your food, and feel like a new girl. You'll be ready for wholesome recreation. A million women already know all this.

World Meet Reserve

Experts Believe Reinder Will Add Greatly To Supply

Experts believe that a great world meet reserve can be established in north Canada and that the millions of acres hitherto regarded as waste land will give the empire a real and cheap addition to its meat supply. They expect that a vast business organization with a cold storage plant and transport installations will result from the successful migration of a large herd of Alaskan reindeer. When the herd has developed sufficiently, tinned reindeer meat and reindeer tongue—held to be a great delicacy—will be exported. The animals will be of the greatest use, as they provide their own food, even in winter. They are generally regarded as the most widely versatile animals in the world.

Turks Eat Little Meat

Quantities Of Rice, Bread, and Fish Constitute Meal

One of the best ways of getting to know a man or a nation is to study what he eats. The inhabitants of Constantinople is a big bread eater and a tremendous rice eater. Strangely enough, considering what a fighter he is, he does not go in for meat very much. He will devour at a single sitting huge quantities of boiled corn, Indian corn, stewed barley, haricot beans, lentils, and aubergines. He cooks in olive oil and will eat fish of any freshwater—just out of the sea in the last stages of decomposition.

One Kind Anyway

A cleaver one Sunday night preached from the text "Who is my neighbor" and showed that it was "He that showed mercy on him." And all he had to say was that the fellow who broke our snow shovel last winter, and would be shown in a few days to borrow our lawn mower.

What He Wanted

"I don't know about granting you my car," Judge said. "You've had three already and if I grant you another you'll simply go and get married again."

"Oh, no, Judge your honor," Jake protested. "I ain't agurin' on that. I told 'em 'jess wants you to put me out of circulation."

"How far have you and your wife got in your plan to buy a new car?" "We've got to the point where we don't speak."

Bolivia has a shortage of merchandise, particularly luxuries.

Freight Shipments By Air

Imperial Airways' Report Shows London-Paris Business Growing

Imperial Airways reports latest available information on the growth of air-borne freight traffic show a steadily increasing volume of business as the United Kingdom is concerned. Officials of the company detailed improvement in freight traffic during the last year.

Goods air-borne between London and Paris during the first three months of this year were 30 per cent. in excess of those during the corresponding period of 1932, while, illustrating the trend of trade, goods exported by air during the first quarter of this year were three times more numerous than those imported.

Altogether, during January, February and March, 1933, more than 200 tons of freight went air-borne between London and Paris.

Considerable increases were also recorded in the weight of mails carried by air from this country during the first three months of this year, while passengers, flying between London and Paris, increased 60 per cent. during January, February and March as compared with similar months in 1932.

Traffic also continues to develop briskly on empire as well as on continental routes. Empire air mail loads, for example, show appreciable increases, while the generally increasing volume of business is particularly on sections of our Africa service, that our carrying capacity has been completely consumed by the employment of large aircraft.

Competing For King's Cup

Aeroplanes Of Many Types Entered Race For July 8

Aeroplanes of many types will race all day over the English countryside, starting at 100 miles an hour when the contest for the king's cup is decided July 8.

Airports, six of which are Royal Air Force, have been selected by the Royal Aero Club as turning points in the race. They are: Felixstowe, Bircham, Newton, Cranwell, Defford, Wittering, Henlow and Up-persay. Defford is the only civil airfield in the circuit, but Royal Aero Club officials and observers will be stationed at each of the airports to see that competitors circle their turning points correctly.

Starting at Hatfield airport, just outside London, the race will be down in four rounds, each starting and finishing at Hatfield. Each round will be flown over 200 miles and will be completed without a stop.

Only British machines, entrants and pilots are allowed to compete. Six types, whether amateur or professional, must be flown, and must have flown alone for 100 hours before the race. Almost every type of aircraft will be seen in the race, and they will be handicapped according to engine power and performance.

Uncovers Roman Pavement

Farmer's Plough Reveals Hole Filled With Earth

While a farmer named Robson was plowing in a field at Redburn, a village near Bridlington, England, he noticed that the share turned up two squares of colored chalk. His curiosity aroused, he began to dig, and less than two feet below the surface he came across a Roman pavement.

Finally, he laid bare a stretch 24 feet by 16 feet, in which there appeared, with amazing clearness of coloring, the helmeted head of a Roman soldier, and a Roman helmet. A representative of the Yorkshire Archaeological Society saw the remains and pronounced them to be those of a Roman villa in a state of preservation. There are two distinct pavements—one tessellated and the other in fine scree work.

Served Higher Purpose

That little picked up on a Yucatan beach after bobbing 3,150 miles in one year from the day it was tossed overboard will be regarded as having served a higher purpose in establishing the drift of ocean currents. That is the opinion of a biologist, the wife's name that he would be in getting home for supper.

"Did you sleep well, sir?" "Wonderfully! You remember I dreamed the night before last that somebody gave me a \$5 note!" "Well, last night I managed to spend it."

Overproduction, they say, has plunged agriculture into the fix it is in. That is, if there were not so many good farmers there would not be so many poor farmers.

MORE ENJOYMENT

Plug Tobacco lasts $\frac{3}{4}$ longer—gives $\frac{3}{4}$ more enjoyment for the money. Buy the $\frac{3}{4}$ -lb. plug and you save still more.

Background for Exhibit

Map Of Canada Will Be Flood-Lighted At Chicago Exposition

History was made in Montreal when Gordon Hammond, internationally famous scenic artist, saw his latest effort, the largest map in the world, a map of Canada in color, 30 by 130 feet, leave for the Century of Progress Exposition in Chicago where it will hang, framed and flood-lighted, as a breath-taking background for the Canadian exhibit in the great hall of the travel and transport building, in which the Dominion Government, the Canadian Pacific and the Canadian National Railways are participating.

The Canadian coat of arms in color, measuring approximately seven by eight feet and surrounded by the word "Canada" in huge cut-out letters, will hang from the centre of the map at the top and constitutes another record achievement in that it is the largest photographic enlargement made to date in the Dominion. The third record is that the complete map, models, dioramas, etc., have been completed in about three weeks, when ordinarily the job would have taken three months. The result has been a real triumph for Canadian artists, Canadian material and Canadian methods.

The huge map, of course, will be the main attraction, containing as it does a complete and accurate map of the national parks, both trans-continental, railway systems on general lines, principal resorts and cities, and three large cartouches or insets in which information concerning Canada as a land of opportunity for industry or tourists, is presented in condensed form. It is intended to grasp its huge size immediately impresses one with the vastness of the Dominion, and as one stands back from it, it is then Mr. Hammond's ability becomes evident. One has the sense of being high above the earth looking down at a scene stretching from the Aleutian Islands to the tip of the Sea to Iceland and from the Arctic to Southern Illinois, in which every detail appears.

Solves One Problem

New York Church Replaces Choir With Record Made

The problem of maintaining a choir when economic conditions prohibit has been solved by the Presbyterian Church of the Convent at New York.

Photograph records of choir singing are played and amplified at the Sunday evening services. The congregation sings to the accompaniment of electrical transcriptions of the choir music from famous churches all over the world. The records are so elaborate programs can be offered than it could present with its own reduced choir.

An Interesting Collection

The trustees of Shakespeare's birthplace are collecting in the manse barn at Wilmore, Stratford-upon-Avon, a display of ancient agricultural implements mostly of local manufacture and craftsmanship. An appeal has been made for gifts of old-time farming tools to help to illustrate the agricultural life of Shakespeare's England.

Employer: "You are, I suppose, strictly honest?" Applicant For Office Boy's Job: "Yes, sir—but at the same time I wouldn't state that business is business."

Nearly ten million narcissus bulbs were grown in Britain in 1932, 1931, while an equal number of bulbs of other species were also grown for the domestic market.

Stamp Fraud Laid Bare

Clever Machine Designed In Britain To Defraud Government

Infrared ray, the remarkable scientific discovery which enables the camera to penetrate fog and darkness, has been the means of unmasking an astonishingly elaborate fraud on the inland revenue.

It is understood that Scotland Yard has been investigating the matter secretly for many months past, and it has now become evident that many thousands of pounds are involved.

The conspiracy to cheat the exchequer has been worked with complete success for years by a clever gang, who have found a means of obliterating the cancellation marks on the stamps issued by the post office for the payment of income tax. Thousands of the stamped cards tendered by weekly wage-earners in payment of income tax have apparently been obtained by some means.

The stamps have been altered, subjected to a chemical process which has removed every mark of cancellation, and then sold at half their original face value.

The inland revenue authorities had not the slightest cause for suspicion until months ago, when someone noticed that the stamps had peeled off one of the cards sent to Somerset House.

It was at first surmised that the gunmaker must be at fault. The cards and the stamps were sent to the firm concerned. The gun was analyzed and found to be different from that they had applied.

Even then the fraud was not suspected, but when more and more examples of re-gummed stamps came to light, a search was conducted. They declared the stamps perfectly genuine, and the authorities remained untroubled until someone suggested taking infra-red photographs.

Then the secret came to light. Numerous specimens have been examined by forensic taxpayers who have admitted the purchase of stamps at half their face value from mysterious hawkers, and one after another have these hawkers been found and interrogated, but the police have not been able to trace the reissued stamps to their original source.

Suggests Food Budget

U.S. Labor Department Gives Division For Every Dollar

Heavy purchasing of milk, vegetables and fruit "if you have very little money for food" was recommended by the U.S. Labor Department in a leaflet, How To Spend Your Food Money. The pamphlet proposed the following as the best division of money when buying groceries: milk, its equivalent, 25 to 30 cents; eggs, meat and fish, ten cents; bread, flour and cereals, twenty cents; fat, sugar and accessories twenty cents.

Whalebone is not home at all, but the elastic substance found in the mouths of whales.

Divorces in England

Seven Thousand Persons Divorced in Great Britain Every Year

One out of every 83 marriages in England ends in divorce. There are now about 30,000 divorced persons in England and Wales and 25 per cent. of them live in London. These are some of the facts revealed by the latest divorce records given in the register-general's annual report. Because divorce is now easier to get, more unhappy marriages are being terminated. As a result there are now five times as many divorces in a year as there were twenty years ago.

Men are petitioning for divorce in greater numbers. For the years the records showed that it was the wives who got most of the divorces. But for the coming term of the law courts at which divorce cases will be tried there are 197 petitions filed by husbands and 351 by wives.

But when they marry again they choose partners who have had no previous experience of matrimony. Only in one case out of ten do divorced men marry divorced women.

In three cases out of four divorced men marry spinsters. The divorced brides are usually under 30 and the husbands between 30 and 40.

In two cases out of three divorced women get husbands for their second husbands. Most of the divorced women are from 30 to 35 and they generally marry bachelors about five years younger than themselves.

About one-half of the divorces occur within the first ten years of marriage. In fact, although the general tendency is for divorces to take place later in life.

Many Protest Against Plan

Auto Drivers in Greece Do Not Favor Restrictions

Greece's new odd-even auto license idea is arousing much protest. The plan is that cars bearing even tag numbers may use the streets on certain days of the week and those with odd numbers the other days. The idea was to reduce imports of gasoline, but in Athens retail sales of "gas" have dropped less than three per cent. since the rule was enforced. One car owner does not relish having his machine idle half the time. Taxi users in Athens complain that now there are not enough taxis.

Had Not Forgotten

Mayor David Croft, of Windsor, Ontario did the nicest thing we have read of for some time, says the Lindsay Post. Himself a ragged newsboy some years ago, he used to save his pennies and buy flowers for his mother. This year he gathered hundreds of poor children in Windsor, who haven't even pennies, and gave them carnations and other blooms to take home for "Mother's Day." He paid the bill himself.

The ocean mudfish, sometimes called the headfish because the greater part of its length is taken up by its head, sometimes attains a weight of over 2,000 pounds.

Passengers flying between London and India can now obtain \$10.00 insurance for the trip for \$3.00.

A Rare Museum Exhibit

Ship Believed To Have Been In Earth Over 1,000 Years

After resting in the earth for more than 1,500 years, the oldest sailing ship ever found in Scandinavia now stands forth part of its former splendor in the historic museum of Gothenburg, Sweden. The "Gallebeek Ship," as it is called, was found about five years ago by a farmer while digging a ditch at Gallebeck on Sweden's west coast.

It was carefully dug out and a considerable part of it was preserved to allow complete reconstruction, which was carried out by experts with infinite care. The ship, now shown for the first time in the Gothenburg museum, is about 14 metres long, clinker-built of oak boards joined with oak nails and beautifully shaped. It was undoubtedly a most seaworthy vessel, with considerable speed, and carried a mast with a square sail. It could also be propelled by oars. By means of careful analysis both of the pollen attached to the hull and of the surrounding geological conditions, the age of the ship has been fixed at about 400 A.D.

One interesting result of this unique find is the fact that the art of navigation is several centuries older in Scandinavia than what archeologists have hitherto been able to prove. The "Gallebeek Ship" also reveals an advanced skill in ship-building at that remote period.

THE RHYMING OPTIMIST

By Allan Michalcio

VILLANELLE OF SPRING

I saw the nesting robin light
Upon the branch, with twig in mouth,
In end of barren winter's drought,
And share the nesting robin's mirth!

The whistling farm boy with his
The furrows deep and straight and
plow.
Gold daisies on the green hills' brow,
The rainbow butterflies that throng
The waving, many-colored grass.
All blend with nesting robin's song.

Awake the old enchantments past,
The magic in the magic in the earth,
Must ever eager land to part,
Must joy in rosiest fragrant birth,
And share the nesting robin's mirth!

Hunting For King's Baggage

Sunk In North Sea Over 700 Years Ago Says Tradition

Pen Gooch Island, in Scotland, England, is the name of a company formed to hunt for the famous baggage and regalia of King John lost in the North Sea.

It is a change from the usual treasure hunt organized with an eye on Gooch Island or the Spanish Main, and many think it probably will prove about as successful. Tradition says King John's baggage and regalia were lost in the Wash, and the company mentioned, appears to think tradition is right and is about to begin digging for the lost treasure. It proposes to locate the treasure by "electrical divination." The Wash is a shallow bay of the North Sea, on the English and Norfolk coast of England.

Tents for dogs have just appeared in London.

Little Helps For This Week

"Thy servants are ready to do whatever my lord the king shall appoint."—2 Samuel 15:15.

I love to think that God appoints My portion day by day; Events of life are in His hand, And I would only say: Appoint them in Thine own good time, And I'll be Thine own best way.

If we are really and always ready to do whatever the King appoints all the trials and disappointments arising from any change, great or small, simply do not exist. If I meant to write His messages this morning shall I grumble that He sends interrupting visitors, rich or poor, to whom I speak the message, or to whom I am to show kindness for His sake. If all my members are really at His disposal why should I be put out if today's appointment is some simple work for my hands or errands for my feet, instead of some seemingly more important doing of head or tongue.—Frances H. Havergal.

Champion Jig-Saw Puzzler

Blind Man Claims Inability To See In An Asset

Stanley Wartenburg, 26, of New York, blind since childhood, is a champion jig-saw puzzler, and he claims that his inability to see is really an asset in putting the puzzle pieces together.

According to Wartenburg, color and lines in the puzzle pictures are handicaps to their rapid assembly. His method is to first turn all the pieces either face up or face down, and then sort out the border pieces, and then the other sections according to the method seen to their mates. Wartenburg is an industrial adviser to York and mop makers in the New York workshop of the Association of the Blind. He has invented many pieces of machinery used by blind workers.

New Source Of Revenue

Railway In England Retains Forgotten Umbrellas To Commuters

Forgotten umbrellas have become a source of revenue for the Southern Railway of England. Notices are posted in suburban stations, offering to hire out to passengers caught in a shower. Holders of commutation tickets can hire them for a rental of only a penny a day. The railway is also trying to find out what to do with the 2,500 sets of false teeth that are left in the trains every year.

The tourist industry is still one of Canada's main sources of wealth. Even this year it will probably represent "invisible imports" of more than \$200,000,000.

Improve flavor of meats, fish and vegetables. Pays for itself many times over. All dealers or write—

CHAPTER XI.—Continued.

"Good Lord! And you've deserted, too, Ped?"

"But I couldn't mink out on a trick like this, could I?"

Alan winced. Here was Pedneault mixed up in his trouble. Like a wagger wolf-bound when his master's head lay behind, Ped had chewed his collar and come along on the hunt.

Where's Bill and Joyce? Pedneault's face grew long as his eager excitement sobered down. He decided it was better to say nothing just now about Dave's suicide. Alan had enough anxiety preying on him.

"I'm thankful for that gasoline," Alan said. "And for you throwing in with us, Ped, at the price you'll pay. But I don't see how you can be. We can't carry a third person on this trip. I'll have to have room to work the machine gun—"

"Then I'll go in the launch." "You can't make it. Above the Aloaka firth there's twenty miles of low water that you can't get through."

"I can make it now. I know what the launch can do. After all these heavy rains, draining down that left fork from the Thal-Azakh... Look there!" he pointed at the "water stage" on a pier that his eighteen inches higher after them. I can get through; and once I'm in those deep-water channels of the Thal-Azakh—"

"All right," Alan agreed. "Desp't be a mighty big help. If they put us out of it, you'll be in position to carry on with them. Let's go up to the post and make our arrangements. You'll be leaving ahead of us."

Meeting Buzzard in the trading hall, he introduced Pedneault and explained. They went on back to the kitchen and worked out their plans. Pedneault was to leave at dawn in the launch. Then the place would leave at ten o'clock. Passing Pedneault just inside the Thal-Azakh, the "plans" would fly shore to create the bandits and bring them to bay. The craft would thus close in together for the battle.

There was but one hitch in the plan. All three men were aware of it, but no one mentioned it. Those bandits had Joyce with them; they could and would use her for protection. How could they be swept with a machine gun's deadly spray when she was with them?

It was something which had to be left to luck or fate. Alan gave final instructions: "If anything happens to the 'plans' don't try to fight those five men by your self. Pedneault. Swing wide of them, go on east to that big lake I mapped for you, and join Bill there. Then the two of you fight them to a finish."

SIMPLY WON'T OUT?

Take Lydia E. Pinkham's Vegetable Compound

Can anything be more wanted for women than the health-giving Lydia E. Pinkham's Vegetable Compound? It is a simple, safe, and sure remedy for all the troubles of women.

Lydia E. Pinkham's Vegetable Compound will help you. Its gentle action will give you relief from all the troubles of women. It is a simple, safe, and sure remedy for all the troubles of women.

"One other thing, I don't want Buzzard or myself to be charged with murder. You're in service, Pedneault; you'll not only be on a legitimate patrol, but you have the power to deputize us to special constables. We'd better put that down in black and white."

It seemed strange to Pedneault, who had sworn in half-breeds and Indian scouts and dog-team drivers on emergency occasions, to be swearing in his former officer commanding in so lowly a capacity. He wrote out the formal authorization: James A. Feather; status, special constable temporary; capacity, aviator. Alan McClend Baker; status, special constable temporary; capacity, scout and machine gunner.

At the earliest hint of dawn they went down to the landing, inspected the launch and lashed Joyce's light canoe on the stern half-deck. Pedneault shook hands with them, slipped into the wheel seat, and set out alone, a solitary figure, up the Big Aloaka.

Waiting, nervous and jumpy, as both had waited for zero hours in France, Alan and Buzzard stalked about the unutterably lonely post.

At nine o'clock, drawn down to the landing, they went over the plan for the third time, and Alan mounted the machine gun in the cockpit. When the zero hour came, he lowered the craft out into midstream, held it there while Buzzard warmed the spluttering motor, and then sending the canoe spinning with a kick, he sprang up into his seat.

Buzzard lifted the "plane out of the river, climbed to five thousand feet, and headed into the northeast.

CHAPTER XII.

The Swan Nest

Thirty miles above the Aloaka firth, they caught up with Pedneault. When he saw that all was well with him, Alan turned his glasses ahead again, sweeping the dunes within vision. He picked up the long narrow V-shape of white firth, up a broad blue channel ten miles on up to the Thal-Azakh.

Signaling Pedneault that they had sighted the canoes, Buzzard slowed down to stalling speed. Pedneault answered back that he understood and they saw him open out the launch into the long narrow V-shape of white firth stretched behind it. Then, winging ahead, they closed in for the battle.

As they drew near and Buzzard dropped to a couple thousand feet, Alan began to make out figures in the two canoes. He counted six men, he counted six persons. Neater still, he distinguished a slender girlish figure in the prow of the lead canoe. They could have found that gun on Joyce, or else she had clung to her faith that he would save her.

Half-raising, Alan glanced back toward the lead canoe. Pedneault was a puzzled expression crept over his face as he failed to glimpse the launch in either the Aloaka branch or the broad blue channel. With a premonition of disaster clutching him, he whipped up the glasses, focused on the connecting creek, and caught the big boat in clear view.

The thing he saw brought a cry into his throat. The craft was not moving. It lay on its side, half out of water, hopelessly stranded. Either from reckless plying or from an accident no man could have averted, Pedneault had struck a mud bar hidden under the treacherous muskeg water; and now the scarlet-and-gold launch, lodged solidly in the mud by the momentum of its headlong dash, was out of the battle for good and all. Pedneault could not even go and help Bill.

Alan took his gaze from the disaster. It was all up to him and Buzzard now. Pedneault was out, the launch was out; Bill was a hundred miles away, and alone.

He tilted the Browning muzzle downward and steadied himself to run a burst at the rear canoe. But that craft dived up along the bank, the leading boat and hovered there, protected against his machine gun by their nearness to Joyce. With sudden eyes upturned, Alan saw the manoeuvring plane, waiting for Alan's next move, defying him to touch them.

Buzzard had banked in a neat hairpin turn, had dropped down to six hundred feet and was flying back past a hundred yards off the vertical, so that Alan could see down at them diagonally and double his concentration by ricocheting bullets off the water. It was a superb shot. Alan could have killed those five bandits and sunk their canoes in half a minute. But he dared not fire a shot.

It was in that space of hopeless deadlock that Joyce came through. Alan saw her make him some slight sign, a mere gesture which he understood, leaning up at him, did not see.

He read the meaning of that gesture; Joyce was preparing for some sudden action; she was signalling him to be ready!

Without a whisper of warning, so swiftly and neatly that the bandits looked around in dazed bewilderment, she half-rose in the canoe, dived, landing on the gunwale, and disappeared.

It came so suddenly that for moments Alan himself hardly comprehended what she had done. When he did realize that she had given him his splendid chance, his finger tightened on the trigger and the Browning leaped into play.

For twenty seconds, till there was danger of Joyce reappearing, he flailed and swept the two canoes with a hail of bullets. He scorched the men, who jumped and yelled. The deadly hail drove them pell-mell in terror of their lives, into shelter of the nearest bank.

Fifty feet from where she had dived, Joyce reappeared a moment, cast a frightened glance back, tossed the dishevelled hair from her eyes, swam a stroke or two, and then dived under again like a young otter, making for a soggy reed bed on the other side of the lake.

"Low! Fly low!" Alan shouted into Buzzard's ears. "Sweep low over 'em. They'll try to get her again. If we don't force the fight now!"

With rides snarling at them from flags below, with white puffs of smoke drifting away on the breeze, the plane banked and dived; it soared four hundred feet high; and then over the bandits, its third time, it swept in a fatal time.

Nearly spun bodily by the quick wrenching manoeuvres, Alan braced himself and hung grimly to the Browning and ran a bullet through the bandits were firing from. He killed a man; he saw the criminal fling up his arms and stagger and fall face downward in the reeds and water. With another burst, ending those flags from a side angle, he would have wiped out the remaining two. But that chance was not given him.

The thunder of the engine suddenly slackened, the motor spluttered and the plane of the two craft came to a halt. Buzzard, who had been firing, turned a white face toward him; and he guessed the engine had been put out of commission by those snarling rides in the flag above.

The next instant, with those rifles still blazing away, a tremor seemed to hit the "plane, as though other bullets had struck it. It lurched violently, its nose and right wing dropped, and it started a steep side-slip. With a gesture of alarmed despair, it fell back into the water.

Two-thirds of a mile from the bandits, it fell heavily into the water on a wing and pontoon, rocked a moment, unbalanced, righted itself, and went—badly disabled, useless, out of the battle.

(To Be Continued.)

Vault Defence Against Poison Gas Planned

Germany Proposes To Have Concrete Shelters Under Buildings

Germany is going to organize a powerful defence against poison gas attacks from the air. Since she cannot build military "planes" she will concentrate on the protection of the civilian population against possible air attacks.

Conferences are being held in the newly established special aviation department of the Reich ministry of interior, to determine the best of protection for the civilian population would be most effective and cheapest.

It will be planned to construct bomb and gas-proof concrete vaults under the most important government buildings so that in case of an emergency the highest officials could take shelter there and continue to keep the government machinery going.

Young Man (ardently)—I've never seen such perfectly dreamy eyes. The other—You've never stayed so late before.

OFF COLOUR? HOW IS YOUR LIVER?

Wake up your Liver! Without Calomel

Your liver is a very small organ, but it is really the most important of your body. It is the great filter of your blood, and it is the great storehouse of your energy. If it is not working properly, you will feel tired, weak, and out of sorts.

The ocean mudfish, sometimes called the headfish because the greater part of its length is taken up by its head, sometimes attains a weight of over 2,000 pounds.

Passengers flying between London and India can now obtain \$10.00 insurance for the trip for \$3.00.

Firestones Win Again!

FIRESTONE TIRES set another World's Record by winning the Indianapolis 500 mile International Sweepstake for the fourteenth consecutive year with Louis Meyer driving at an average speed of 104.162 miles per hour, breaking all records. This performance was accomplished without tire trouble and every driver finishing in the money won on Firestone Tires. It was the most grueling test to which Firestone Tires have ever been subjected. You cannot realize the punishment these tires received. The heat was terrific and the speed faster than ever. The construction features of Firestone Gun-Downed Tires, with two extra cord plies under the tread made it possible for them to endure such severe tests and again proved them to be the strongest and safest of tires.

BASEBALL

In the Baseball game between Carlsland and Arrowwood held at Mossleigh on June 9, Arrowwood won by a score of 15-4. The weather was somewhat cold during the evening and, due to this fact, both teams were unable to deliver a good type of ball. Pitman started on the mound for Carlsland, but the local team batted him for numerous hits before the fifth inning, when he was replaced by L. Phillips. Mason pitching for Arrowwood excelled himself and turned in a good game. McCullough at second was outstanding. On several occasions he stopped difficult balls and at each time retired the runner at first.

The batteries for the game were:
Carlsland—Gherke, Pitman, Phillips
Arrowwood—Norton, Mason

Lomond 5—Arrowwood 5

A fine exhibition of baseball was displayed at the local diamond Tuesday evening last when the highly touted Lomond team were present to oppose Arrowwood. The boys from the East have developed a fast club during the past few years and Arrowwood performed in a very credible manner against them with a score tied in the ninth inning at 5-5. Mason hit to deep left field for a two base hit and it looked for a time as though Arrowwood would win in their

half of the ninth. Unable to hit safely at this time Arrowwood could not score the needed run and Lomond, averted what appeared to be a defeat. Miller went the full nine innings for Arrowwood and pitched a splendid game. Both clubs had consistent hitters the longest hit of the evening being a three base hit by Alfred Lomond. Francis Mason, the Arrowwood 3rd baseman, played a wonderful game accepting all chances at 3rd and gathering in with ease several difficult fly balls. In addition to this he had a big night at bat making two, two base hits. Donald Bowman, Archambault and E. Norton also hit well. Archambault's shoe-string catch in centre field was a feature of the game.

Arrowwood—M. Norton, M. Bowman, McCullough, D. Bowman, F. Mason, Smith, E. Norton, Archambault, Hales, Miller.

BASKETBALL

Thursday evening Arrowwood High School Basketball team played basketball against the Blind Creek team at the Blind Creek School. In this game the Arrowwood players did some good playing, being victorious with a score of 8-2.

Blind Creek made their only score in the first half of the game. Irons Army, of the Arrowwood team, scored in the first half making the score a tie of 2-2. In the last half of the game Ruby Hall distinguished herself by making two baskets, bringing the score up to 8-2. Before the end of the game one more brilliant play was Irma Army's. The game ended with the score 8-2 in Arrowwood's favor.

After the game a delightful lunch of cake and lemonade was served by the Blind Creek Team.

SOFTBALL

Friday, June 9 at the Mossleigh Sports the A.F.S. Girls Soft ball team won a beautiful victory over Mossleigh. At the end of the first inning Arrowwood was 9 runs ahead the score being 9-0. In the fourth inning Ruby Hall did star hitting when she knocked a homer when all bases were full, thus bringing in three players and herself. The game ended with the score 18-9 in favor of Arrowwood. The girls came home with \$5 to the good.

Line-up: Mossleigh—C. M. Leslie, P. R. Martin, 1 b, P. McGuire 2 b, Mrs. Gherke 3 b, Mrs. Blair, 1st s.s. Mrs. McDonald 2nd s.s. O. Bain, 1 f, Bobby Hansen, r.f. F. Carlsen, Arrowwood—C. J. MacLeod, star hitting, 1 b, I. Hesketh, 2 b, E. Burries, 3 b, R. Hall, 1st s.s. A. Ward, 2nd s.s. E. Beagle, 1 f, V. Hesketh, r.f. D. Brown.

The Federal Grain Ltd. are having a booth at the World's Grain Exhibition to be held in Regina from July 24th to August 4th.

There will be comfortable chairs and a telephone. They invite you to visit their booth and make it your headquarters while there.

Milo Notes

(Continued from page 1)

Mr. and Mrs. J. McLean motored to Calgary on Monday, returning on Tuesday.

Mrs. LeBow of Vulcan and Mrs. Price of Calgary were visitors at the home of Mrs. A. Ferguson this week.

Mr. and Mrs. E. Cully were visitors in Calgary over the week-end.

Service was held in the United Church Sunday evening at 8 o'clock, with Mr. Brown in the pulpit. Mrs. C. Northcott

and Mr. A. Sadderling sang, 'He Never Forgets His Own.' Sunday School will be held every Sunday 7.30 and Church service at 8 p.m.

Miss B. Donnelly of Armada is a guest of Mrs. E. Jones this week.

Lawrence Phillips' new home is well on its way. "It won't be long now."

Crops are looking fine in and around Milo. The heavy showers which we were favored with last Sunday and Monday, will help considerably.

Mr. and M. s. Bullis and family of Calgary were visitors at the N. St. Peter home last week.

Miss Betty Neithall, Austin Chevalier and Miss McConnell were business visitors in Calgary over the week-end.

Mrs. J. Johnston is a visitor in Calgary at the home of Mrs. S. Joplin.

The Federal Elevator closed its doors on Wednesday for a short season.

Milo residents journeyed, en masse, to Armada on Sunday afternoon where a lively baseball game took place. Score 3 to 1 in favor of Armada.

Mrs. C. Sutton returned home on Sunday after spending a month's visit with her parents at Suffield.

A shower in honor of Miss Gladys Soli was held at the home of Mrs. Russel Mills on Thursday afternoon. The time was spent very pleasantly playing Bridge and contests. A mock wedding was carried out by some of the children of the community. The bride and groom marching in to the strains of Lohengrin Wedding March, played by Mrs. P. H. Coleman, after which a doll's basinet, decorated with pink and white crepe paper, with a cover on which a doll, dressed as a bride, stood, was rolled in. The basinet was filled with a great many lovely and useful gifts, with the best wishes of each giver attached. A very delicious and elaborate lunch was served, after singing 'She's a Jolly Good Fellow.'
